Specifications

Construction

Constructed of Heavy-Duty extruded 6063 aluminum alloy. Upright frame is fully welded. Plastic caps installed in the bottom of each tubular upright.

Uprights & Cross Braces

Uprights are one solid piece of 1" square tubular frame with squared-edges. Upper and middle cross braces are 1" square tubing. Lower cross braces are 1" square tubing.

Runners

Tray runners are all aluminum and fully welded to the frame. Each runner measures 1" x 1-1/2" x .078 angle.
